Jervis Bay Territory Administration

## Community Bulletin

Number

**2012/07**

Date

**21 May 2012**

Relevance

**Wreck Bay Village**

Topic

**Planned electricity outage: Wednesday 30 May 2012**

Transelect manages the maintenance of the Jervis Bay Territory's electricity distribution network.

As part of its maintenance program, Transelect is due to carry out insulation resistance testing on the local substation.

Transelect has advised that the testing will require a rolling schedule of electricity outages. An outage is a temporary interruption to your electricity supply.

Wreck Bay Village will be affected by a planned outage to occur from

**9.00am to 9.45am on Wednesday 30 May 2012.**

Please contact the Jervis Bay Territory Administration Office on 4442 1217 if you have any concerns about this outage.
